This is a monthly automated message
from the Cedar-Astronomers Yahoo!
group

Monthly Meeting

Don't forget about the monthly association business meeting that is coming up soon. This meeting is held on the first Thursday of each month at either the Resource Center next to St. Luke's Hospital or at the EIOLC. However we may have to change dates or locations occasionally due to holidays or conflicts. For details about this month's meeting, please visit <https://www.cedar-astronomers.org/monthly-meetings> . If you are a member in good standing (I think that means that you've paid your dues!), then you should also be receiving the new issue of The Prime Focus in the mail shortly before the meeting, and any change of venue should be mentioned there as well.

This Is A Monthly Message

This message should be sent out automatically by Yahoo on the first of each month. If you happen to notice that you do not receive this message some month, please email the CAA Webmaster (see address in the Resources section below) so that the problem can be diagnosed and fixed as quickly as possible.

Email Attachments

You may want to make files, such as drawings, photographs or technical papers, available to other members of the CAA and the CAA Yahoo! Group. However, this can present problems to members of the CAA Yahoo! Group that have low email quotas or low-speed connections. Furthermore, the Web Site for the CAA Yahoo! Group does not save attachments online

File: C:\Users\John\Downloads\caa_yahoo_monthly_message.txt
:t 7/21/2018, 9:10:45AM

with the archived messages. For these reasons, the preferred way to do this is to send the file to the CAA Group Webmaster (see address in the Resources section below). The Webmaster will then post the file on the club's Web site and send you the Web address (URL) that can be used to download the file. At that point, you can reference the URL in your email.

Although it is not encouraged, you can also attach files directly to emails sent to the CAA Yahoo! Group, but if you do so, we ask that you keep these attachments under 50K whenever possible, and under 100K at all times.

For more information about Email Attachments, please read the CAA Yahoo Group Membership Policy, available at <https://groups.yahoo.com/neo/groups/cedar-astronomers/files> .

Resources

* The CAA Web Site is located at <https://www.cedar-astronomers.org> .
